EXPERIENCE

Freelance Full-Stack Developer & Automation Builder | Self-Employed · Remote | 2024–Present

Built and deployed mobile-friendly websites, booking and e-commerce experiences, dashboards, internal tools, APIs, authentication, and database-backed workflows across React, Next.js, Node.js, Python, PHP, Firebase, and Supabase. Automated public-data research and repetitive operations with Python, browser automation, n8n, OpenClaw, and AI APIs, including validation, deduplication, retries, and human-review checkpoints.

AI Automation & Lead Data Specialist | Grow Business UK · Remote | 2026

Processed and enriched 9,000+ seller and business records; resolved blocked sources, missing fields, proxy issues, and data-quality failures while turning changing requirements into repeatable documented workflows.

Lead Generation & Web Scraping VA | FullKalendar / Fullkalender.no · Remote | 2026

Collected and standardized leads from Norwegian directories and Google Maps, tracked source and status fields, removed duplicates, and delivered structured recurring client datasets.

SELECTED PROJECTS

RiceGuardAI: Drone-assisted rice disease segmentation workflow using AWS, Kaggle, CVAT, and YOLO; handled dataset validation, annotation refinement, evaluation, and application-facing results.

AI Outreach Bot v2: Built an AWS-hosted, 11-node n8n workflow that generates outreach, previews messages in Telegram, and keeps SMS sending behind a deliberate gate.

Cagayan Review Intelligence: Built a multilingual ABSA pipeline; V8 reached 82.08% accuracy and 81.79% macro-F1 on a fresh, balanced 240-item holdout.

SkyGlass & Drones and Gadgets PH: Designed and deployed responsive business websites that turn complex offerings into clear discovery, inquiry, and product journeys.
